ANNUAL REPORT

2021-2022

Website: www.cfdngo.org

From the desk of Director

Year 2021-2022 has brought difficult time for common people. The 2nd wave of COVID-19 and another natural disaster Cyclone Tauktae added vulnerability among the people from marginalized and poor economic section.

Many small businesses closed down while many medium scale businesses slowed down due to uncertainty of economic normalcy. Families which have school or college going children faced crises in paying fees. While workers of informal sector faced highest uncertainty of survival. Thousands of migrated labourers went back to their native with hope of survival. But there too the situation was same.

It was great learning for every one including state to manage such pandemic or similar humanitarian crises.

CfD played important role in this year and provided best support to the people on humanitarian ground without any preferences of caste, religion, economic condition and gender. Total 5775 families have provided food and hygiene support. Around 50,000 people were made aware with personal hygiene, vaccination and preventive measure to survive from pandemic.

This whole experience was new and serious for CfD's team members too. But I am proud that, whole team and volunteers of CfD committedly worked day and night to respond and support COVID-19 affected families. The leadership of CfD successfully mobilized sufficient funds to meet the need of community.

Along with emergency humanitarian response, CfD had performed its regular programs too with necessary precautions and measures.

I must thank all supported from and abroad India for putting faith in CfD's capacity to work in humanitarian crises and motivate us to work committedly.

Best.

1. Education

1.1 Kadam Resource Centre (KRC)

KRC is a well-equipped place providing opportunities to learn, explore and develop writing, learning, speaking, communicating skills through different methods. For each girl there is different process of mentoring. Rigorous follow up has been done by the team to bring change in each girl associated with KRC under the guidance of senior team members.

This year there were 30 girls (of single mother) part of KRC.

A small library with around 300 books, has been set up for their extra reading and learning. This opportunity helped them to learn to develop wider perspective.

26 discussion sessions were held to understand issues girls are facing in their daily life. Their queries were answered by various resource persons in broader way.

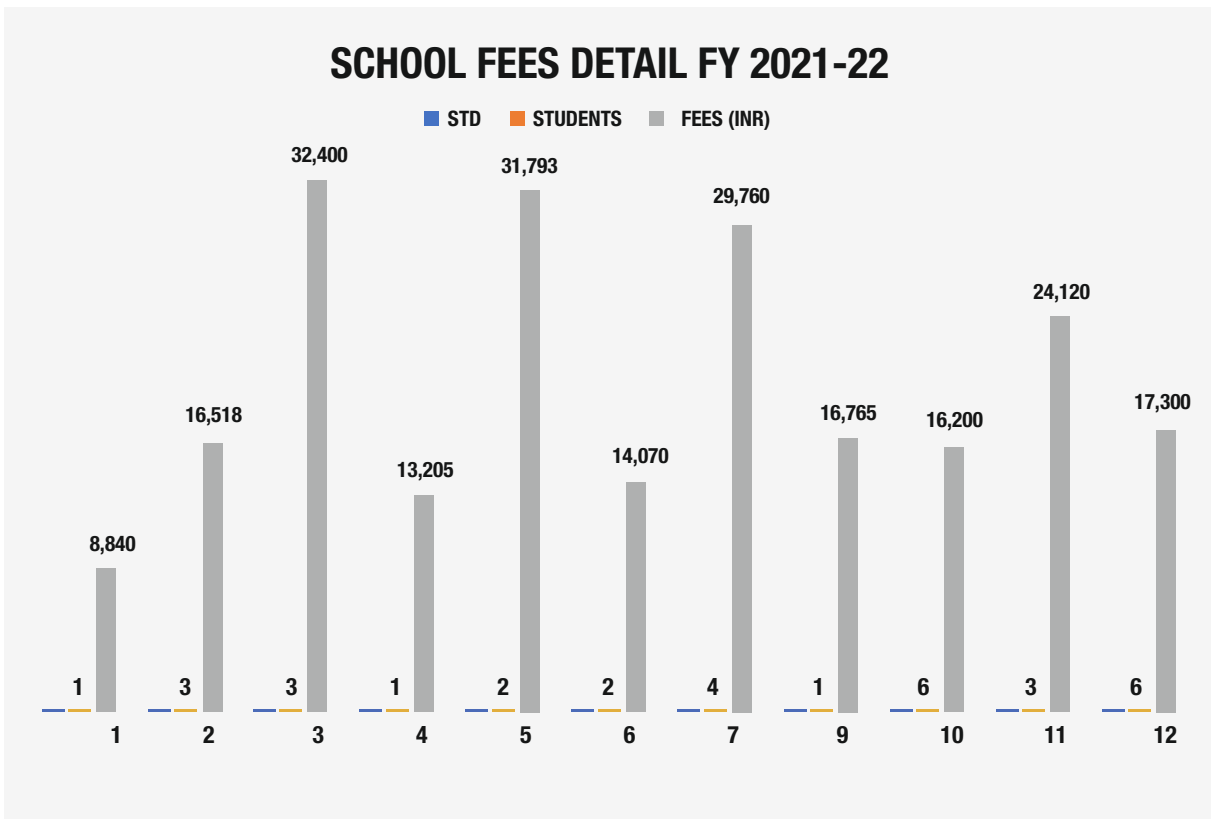

KRC is space where girls have full freedom to express their views, queries and show different capabilities. Komal, one of the senior girls is excellent in painting. She does not have time, space and resources at home to bring out her extra ordinary painting skill. In KRC she finds this space.

1.2 Financial Support of Education Fees

The girls of KRC are coming from marginalized social groups, education is their less priority due to uncertain income. It is important to provide them financial support to complete at least their schooling. Therefore, total 2,20,971 INRs. fees have been paid on behalf of 31 students from 1st to 12th standard.

1.3 Counselling and Mental Health Support

Due to COVID-19 2nd wave and uncertain economic conditions of family children too felt stressed along with their parents. In LitClubs many children shared their problems in meeting daily expenses. Education became least priority for these families, many children between 6th to 8 standards have dropped from schooling and started some work to help their parents. Pandemic increased the number of child labour in general.

The experience team of 3 members of CfD countered these types of cases. Under the guidance of qualified counsellor team had provided counseling sessions to 86 children and their parents. This support helped them to face the challenges of uncertain income and income sources.

More in some families' deaths were also happened. The loss of main wage earners gave deep shock to remaining family members. This was crucial time to counsel those families.

1.4 LitClub Program

1.4.1 LitClub Sessions

In 16 LitClubs total 768 LitClub sessions were conducted where in 161 girls and 67 boys have participated.

1.4.2 LitCamps

A LitCamp was organized from 27th to 29th December, 2021 at Bakor with 78 Girls. The objective of three days LitCamp was to provide space to children so that they can think beyond their imagination on the seven strengths on which the curriculum of LitClub is based. In these three days children performed different activities based on seven strengths. Respectively Belongingness, Hope, Kindness, Curiosity, Friendship, Confidence and Courage. This year in general session information in Reproductive health and Self-Confidence were discussed. In continuation of session idea of social media platform, use of social media and risks of social media platforms were also discussed.

1.4.3 World Read Aloud Day Celebration

A day long celebration was organized on 7th February, 2022 at HDRC, St. Xavier's College Campus, Ahmedabad. Total 172 boys and girls including 10 volunteers and 5 Bal Dosts have participated. Children performed stories, songs, story making from words and pictures were main activities of this celebration.

The objective of celebration is, every child should have courage and confidence to speak whatever she/he feels and share his/her opinion loudly so others listen them and consider their presence. Reading loudly is used as tool to motivate children.

1.4.4 Standup for Girls Day Celebration

This program was organized on 7th May, 2021 at HDRC, St. Xavier's College Campus. Total 172 children have participated where in 114 girls and 58 boys were engaged. The objective of this celebration is to aware people about rights of girls and women in patriarchal social structure and sensitize male folk to accept their existence as equal human being and listen them.

HIV+ boy who lost family rescued

9-year-old Valsad boy lost mother to HIV, father left home; he now lives in Children's Home in A'bad

Afflicted by a deadly disease and having lost his entire family to death and abandonment, nine-year-old Rehan (name changed), who lived in slums in Valsad, boarded a train to Ahmedabad one day, with no clue of where it would take him.

Young Rehan had it tough from the beginning. He had inherited HIV from his poor parents and had also lost his mother to it at a very young age. A few years later, his father left home and never returned, leaving him in the care of his elder sister who was married by that time.

For some time he lived with sister and her husband, who accepted him with a loving embrace. However, three months ago his sister too left her marital home never to return. Rehan's last blood relative had also abandoned him. But his sister's in-laws tried their best not to let him feel alone. They cared for him in spite of the dire financial situation they were in.

In late October, the boy walked out of home and sat in the Vapi-Ahmedabad Memu and reached Kalupur railway station. There, he was found by personnel of the Railway Protection Force (RPF) at

about 2.30 am on October 22. During counselling, Childline volunteers learnt he was from Vapi and asked the local police to check up on his family. They traced his relatives who could provide Rehan's ID documents but his sister's mother-in-law gave the police his medical records. It showed that he was HIV positive.

"Since Rehan had no family to contact for guardianship, and because the family he was staying with is very poor, we counselled them to let him stay in the Home of HIV positive children in Gandhinagar. He would be taken care of there and his medical needs would also be met," said Imran Bhowariya, coordinator of Childline at Ahmedabad railway station.

He has been living there since. On Monday, Childline volunteers tied friendship bands to others who aid in protecting vulnerable children. This was part of the "Childline Se Dost" campaign they run every year from November 14 to 20. The objective of the campaign is to create awareness of Child Helpline services so that they can reach any child who seeks help, support or protection. The Centre for Development runs Child Help Desk at Ahmedabad Central Railway Station under the banner of Child Help Desk (CHD).

3. Community led transformation

3.1 Samaveshi Shaher Project (Inclusive and Participatory Cities)

The idea of inclusive and participatory cities has been adopted well by the local Samaveshi Shaher Samities (Inclusive City Committees) of various Ahmedabad Municipal Wards. People from 12 areas of 7 wards came together to work on it and make their wards inclusive and participatory in real meaning. Implementation of 74th amendment to the Indian Constitution is the basic of this project.

Wards associated in this project are as below,

Sr. No.	Zone	Ward
1	South	Behrampura
2		Lambha
3		Vatva
4	East	Odhav
5		Ramol
6	North	Naroda
7		India Colony

3.2 Ahmedabad Waste Pickers Association (AWPA)

In continuation of work with waste pickers CfD approached new areas where waste pickers reside. The leaders from Saraniya vas Narol and Jashodanagar helped CfD team in identifying these areas. New 78 members have joined AWPA.

4. COVID-19 Response

4.1 Support of food and hygiene kits to COVID-19 affected families in Gujarat

The food kit distribution was done in the months of May and June 2021, at a very crucial stage of the 2nd wave of Covid-19. People who were hit severely by the partial lockdown were further affected by the cyclone Tauktae that hit the city. It severely damaged hundreds of houses in Ganeshnagar, Behrampura, Vadaj, Bombay Hotel areas of the urban poor were severely affected, pushed them into a serious economic crisis. They would now have to borrow at high usurious rates of interest to repair or rebuild their houses; and the monsoon was already round the corner. It was going to be difficult to rebuild those houses, with the crippling unemployment, burgeoning debts driving many into depression and suicide and the looming food crisis. The families were surviving on limited food stocks with no square meal a day.

App based data collection (Kobo collect) process made the intervention fast and easy. Training on Core Humanitarian Standards (CHS) was conducted with the team and volunteers engaged in this humanitarian response.

Activities and Reach:

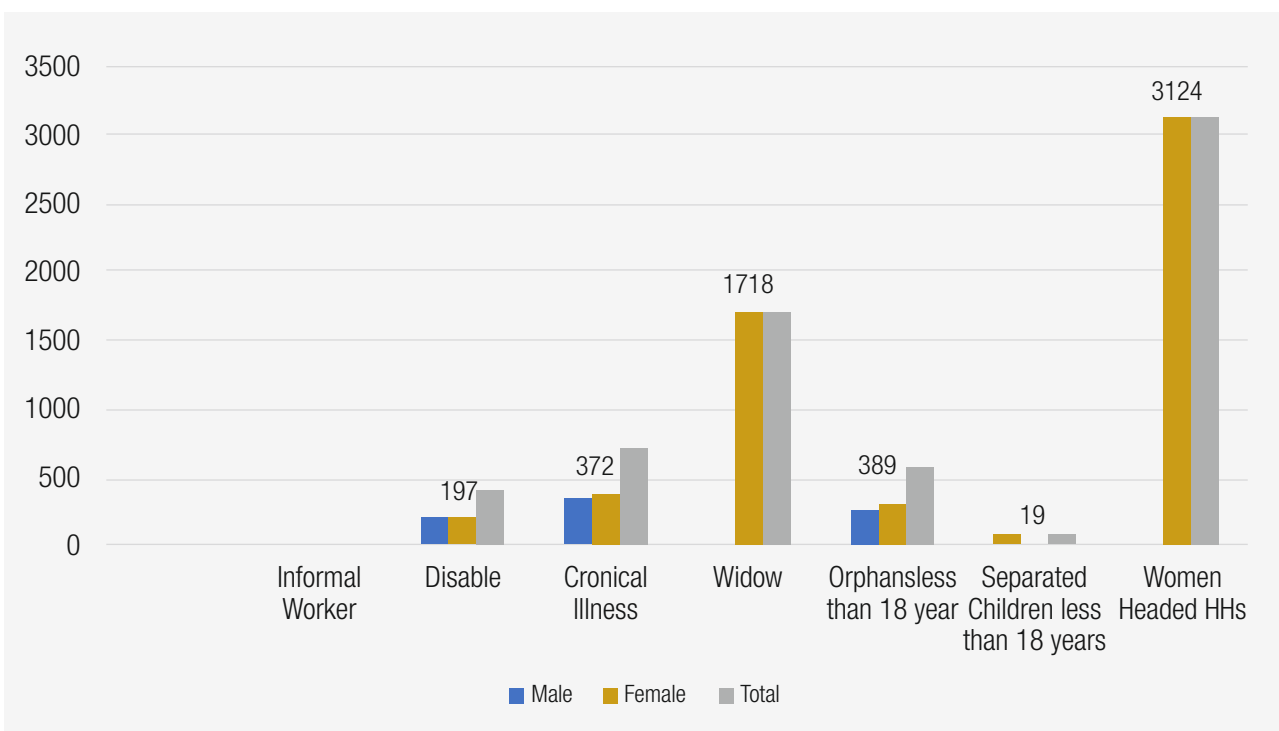

- Total 5775 families have provided food and hygiene kits support.
- 4275, 5 litres jars of Hypo Chloride for sanitizing purpose were provided to five major hospitals in Ahmedabad City.
 - i. Civil Hospital, Asarva – 1500 Jars
 - ii. V S Hospital – 575 Jars
 - iii. L G Hospital – 700 Jars
 - iv. GCS Hospital – 500 Jars
 - v. AMC Central Medical Store – 1000 Jars
- Awareness campaign on health and hygiene, social distancing, WASH and vaccination was conducted in Ahmedabad city. Banners and posters were displayed with the help of local leaders and Children Group members.

Priority was given to,

- Daily wagers, domestic helpers, laborers, rage picker, etc.
- Widow, abandoned women or woman-headed families,
- Elderly, some of them abandoned by their families,
- Auto drivers, sweepers, etc.
- Small vendors and food vendors,
- Families with critically ill members,
- Extremely weak financial condition and
- Families in immediate need of food

With support of Islamic Relief a UK based organization, total 5275 food kits were distributed to COVID-19 affected families.

Challenges and difficulties:

The execution was not very easy due to COVID restrictions and constant changes in the government guidelines and restrictions; however, the CfD staff, area leaders and the volunteers conducted the distribution flawlessly. The major challenges and hurdles of the distribution process are mentioned below:

- With constraining time limits and curfew timings, the staff members, area leaders and volunteers had to work within a time frame.
- The most challenging part of the distribution was to alter the list of beneficiaries provided by the area leaders, as all the families were in need but family in grave need had to be given preference.
- The volunteers who supported the distribution could not always be present as they had their other commitments too. This necessitated better coordination of volunteers and efficient time management so that they could get the maximum output from the volunteers.

The food kits were a great source of support to families who were in a very vulnerable state financially and mentally. The families were struggling to manage even two square meals a day. With the food kits, the family's most basic necessity was taken care of. 500 families benefited from the food kits in various areas of Ahmedabad city. The families were struggling for two basic necessities- shelter and food. The food kits helped them to focus on other needs such as shelter and livelihood, without having to worry about starvation.

For food and hygiene kits support Association for India's Development (AID) and Islamic Relief, UK provided financial support. Total support CfD received for food and hygiene kits was 2,57,81,224 INRs.

"મને ક્યારેય ભીખ માંગવી ગમતી નહોતી તેથી જ હું બીજી નોકરી કરતો હતો, પરંતુ તે ખૂબ જ દુર્ભાગ્યપૂર્ણ છે કે મને તેના પરિવારને ટેકો આપવા માટે નજીકના બરોડા એક્સપ્રેસ હાઇવે પર ભીખ માંગવા જવું પડ્યું."

"I never liked begging that is why I was doing other jobs, but, unfortunately, I had to go to begging at the nearby Baroda Express Highway to support my family".

હવે ઓછામાં ઓછું મને ખાતરી છે કે મારા પરિવાર પાસે ખાવાનું છે. મને ઓછામાં ઓછા એક મહિના સુધી તેમના ખોરાકની ચિંતા કરવાની જરૂર નથી. " હું મજૂર તરીકે કામ કરવા માટે સુરત જઈ રહ્યો છું. જ્યારે મને કીટ મળી ત્યારે મને હળવાશ અનુભવાઈ કારણ કે હું શાંતિથી તેના કામ પર જઈ શકું છું."

"Now at least I am assured that my family has food to eat. I do not have to worry about their food for a month at least". I am is going to Surat to work there as a laborer. I felt relaxed when I received the kit as I can go to work peacefully".

लोग खाना और राशन ही दे सकते थे लेकिन और भी जरूरतें हैं जैसे सब्जियां, दूध और दवाएं। और उसके लिए हमें पैसे की जरूरत है और बिना काम काज के इन सभी चीजों का खरीदना मुश्किल है।"

"People could give food, and ration but there are other needs that we need like vegetables, milk and medicines. And for that we need money and without work it is was difficult to have all these." (Translated)

4.1 Arogya Mitra Fellowship program

With the financial support of AID, CfD had carried short term fellowship program in Anand, Mehsana and Ahmedabad districts with the migrant workers and their families to building awareness on post COVID-19 precautions, vaccination of COVID-19 and its benefits, food support providing by state and other organizations and special health facilities available at various PHCs, CHCs and hospitals. 9 persons were provided Arogya Mitra Fellowship for 7 months started from September, 2021 to March, 2022.

Due to this intervention the behavior of local people towards vaccination had changed and vaccination percentage increased at CHCs and PHCs.

5. Other Involvement

5.1 Response in Tauktae Cyclone

Centre for Development (CfD) is a core group member of Inter Agency Group, Gujarat chapter visited Tauktae cyclone affected areas of Gir Somnath, Amreli and Junagadh districts of Saurashtra region of Gujarat in the month May, 2022.

CfD team (5 persons team in two rounds of visits) visited 23 villages and assess the situation of destruction and need, which was later shared with the MLA, district panchayat body, gram panchayat members and organizations engaged in relief and rehabilitation work. The report on field observations and quotes of local people, were shared with IAG group which was later shared with the persons and organizations engaged in counseling and emotional support providing.

Newly constructed road along Simer beach (Port), washed away with 200 huts of fisher community.

Mango farms have been destroyed in Amreli and Somnath Veraval districts.

The outcome of these two visits was,

1. IAG member organizations could reach out most needy villages and areas to provide relief – food and non-food items.
2. Issues like discrimination, capture of common utilities and spaces by influential people could be taken to authority and dissolved. (in one village electric generator of Multi-Purpose Shelter Home was captured and used for water supply to hamlet of particular community).
3. Less bother issue like importance of mental health could be addressed by concerned state department.
4. Assessment of loss of marginalised communities was included.
